Please find below and/or attached an Office communication concerning this application or proceeding.

1) Responsive to communication(s) filed on				ation No.	Applicant(s)	Applicant(s)				
Hoa V. Lo   1752	Office Action Summary			10/773,559 KOBAYASHI ET AL.		AL.				
The MAILING DATE of this communication appears on the cover sheet with the correspondence address — Period for Repty  A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE ∫ MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.  Estantiano of time may be a validate under the provisoria of JC FR.1136(), in to event, however, may reply be thriefly filled in the provisorial of JC FR.1136(), in the vent, to week, may reply be thriefly filled in the provisorial of JC FR.1136(), in the vent, to week may a reply be thriefly filled of this communication. Follows to reply is pacefuled above, the maintens statutory period will apply and will expire SIX (M) MONTH's from the realing date of this communication. Follows to reply which we set or expire securities provisors and the provisor of the provisor				ner	Art Unit					
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE ½ MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.  Extensions of lines may be available under the provisions of 37 CPT 1.30(g), in no event, however, may a reply be limitly filled.  Expensions of lines may be available under the provisions of 37 CPT 1.30(g), in no event, however, may a reply be limitly filled.  Expensions of lines may be available under the provisions of 37 CPT 1.30(g), in no event, however, may a reply be limitly filled.  Fabrus to reply within the set or extended period for reply will, by alkaling, cause the application to become ABANDONED (33 U.S. C.§ 133). Any party proceed by the Office in the three brownings and status party and the provision of the mailing date of this communication, even if finally filled, may reduce any available process that a party in the provision of the mailing date of this communication, even if finally filled, may reduce any available, cause the application, even if finally filled, may reduce any available, cause the application is non-final.  3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Exparte Quayle, 1935 C.D. 11, 453 O.G. 213.  Disposition of Claims  4) ☐ Claim(s)										
WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.  Extensions time may be available under the provided of 37 CFR 1.376(a). Inn event, however, may a reply be limbly filed after SIX (6) MONTHS from the mailing date of this communication. And the standard of the communication of the commu			cation appears on	the cover sheet	with the correspondence a	ddress				
1) Responsive to communication(s) filed on	WHIC - Externafter - If NC - Failu Any	CHEVER IS LONGER, FROM THE MAnsions of time may be available under the provisions of SIX (6) MONTHS from the mailing date of this communication period for reply is specified above, the maximum state to reply within the set or extended period for reply weeply received by the Office later than three months after the province of the control of the cont	ALING DATE OF f 37 CFR 1.136(a). In no nication. utory period will apply and rill, by statute, cause the	THIS COMMUN event, however, may d will expire SIX (6) Ma application to become	NICATION. a reply be timely filed  ONTHS from the mailing date of this ABANDONED (35 U.S.C. § 133).					
2a) This action is FINAL.  2b) This action is non-final.  3   Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.  Disposition of Claims  4   Claim(s) 1-51 is/are pending in the application. 4a) Of the above claim(s) is/are withdrawn from consideration. 5)   Claim(s) is/are allowed. 6   Claim(s) is/are objected to. 8   Claim(s) is/are objected to. 8   Claim(s) is/are objected to. 9   The specification is objected to by the Examiner. 10   The drawing(s) filed on is/are: a)   accepted or b)   objected to by the Examiner. Application Papers  9   The specification is objected to by the Examiner. Note the attached Office Action or form PTO-152.  Priority under 35 U.S.C. § 119  12   Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a)   All b)   Some * c)   None of: 1.   Certified copies of the priority documents have been received. 2   Certified copies of the priority documents have been received in Application No 3   Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).  * See the attached detailed Office action for a list of the certified copies not received.  Attachment(s) 1)   Notice of References Cited (PTO-882) 2)   Notice of Informal Patent Application	Status									
2a) This action is FINAL.  2b) This action is non-final.  3   Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213. This application is up for consideration.

- A. In view of the complexity of the claims as set up, this Office action is made.
- B. Restriction to one of the following inventions is required under 35 U.S.C.121:
  - I. Claims 1-4 and 11-15, drawn to a non-magnetic metal oxide composition, classified in class 501, subclass 134.
  - II. Claims 5-10 and 34-38, drawn to ferrite containing composition, classified in class 428, subclass 621.
  - III. Claims 16-31 and 39-50, drawn to coated metal oxide particles, classified in class 148, subclass 272.
  - IV. Claims 32 and 51, drawn to a electrophotographic developer, classified in class 430, subclass 111.33.
  - V. Claim 33, drawn to a copying process, classified in class 399, subclass 130+.
- \* Inventions Group I and Group II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that

Application/Control Number: 10/773,559 Page 3

Art Unit: 1752

(1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the ferrite containing composition combination can have its patentabilities on ferrite chemical elements or composites. Applicants should disagree, show and/or urge otherwise in the next response to this Office action in order for it to be considered timely. The admission will be used to search for the a non-magnetic metal oxide composition subcombination only. The claims will stand or fall together. The subcombination has separate utility such as ceramic agent.

\*\* Inventions Group II and Group III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the coated ferrite particles combination can have its patentabilities on coating chemical elements and/or polymers. Applicants should disagree, show and/or urge otherwise in the next response to this Office action in

Art Unit: 1752

order for it to be considered timely. The admission will be used to search for the a non-magnetic metal oxide composition subcombination only. The claims will stand or fall together. The subcombination has separate utility such as magnetic sound recording agent.

\*\*\* Inventions Group III and Group IV are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the ferrite containing composition combination can have its patentabilities on toner chemical elements or composites. Applicants should disagree, show and/or urge otherwise in the next response to this Office action in order for it to be considered timely. The admission will be used to search for the a non-magnetic metal oxide composition subcombination only. The claims will stand or fall together. The subcombination has separate utility such as mild abrasive agent.

The examiner has required restriction between combination and subcombination inventions. Where applicant elects a subcombination, and claims

Art Unit: 1752

thereto are subsequently found allowable, any claim(s) depending from or otherwise requiring all the limitations of the allowable subcombination will be examined for patentability in accordance with 37 CFR 1.104. See MPEP § 821.04(a). Applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Inventions of Groups (I, II, III and IV) and Group V are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product. See MPEP § 806.05(h). In the instant case, the copying process as claimed can be practiced with a known or commercial available developer.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not

Art Unit: 1752

required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

The examiner has required restriction between product and process claims. Where applicant elects claims directed to the product, and the product claims are subsequently found allowable, withdrawn process claims that depend from or otherwise require all the limitations of the allowable product claim will be considered for rejoinder. All claims directed to a nonelected process invention must require all the limitations of an allowable product claim for that process invention to be rejoined.

In the event of rejoinder, the requirement for restriction between the product claims and the rejoined process claims will be withdrawn, and the rejoined process claims will be fully examined for patentability in accordance with 37 CFR 1.104. Thus, to be allowable, the rejoined claims must meet all criteria for patentability including the requirements of 35 U.S.C. 101, 102, 103 and 112. Until all claims to the elected product are found allowable, an otherwise proper restriction requirement between product claims and process claims may be maintained. Withdrawn process claims that are not commensurate in scope with an allowable

Art Unit: 1752

product claim will not be rejoined. See MPEP § 821.04(b). Additionally, in order to retain the right to rejoinder in accordance with the above policy, applicant is advised that the process claims should be amended during prosecution to require the limitations of the product claims. **Failure to do so may result in a loss of the right to rejoinder**. Further, note that the prohibition against double patenting rejections of 35 U.S.C. 121 does not apply where the restriction requirement is withdrawn by the examiner before the patent issues. See MPEP § 804.01.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly

Art Unit: 1752

admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

- C. Other issues are not now considered until a proper and complete election and requirements are made.
- D. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hoa V. Le whose telephone number is 571-272-1332.

The examiner can normally be reached from 6:30 AM to 4:30 PM on Monday though Thursday and about the same time of most Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cynthia Kelly can be reached on 571-272-1526.

Applicants may file a paper by (1) fax with a central facsimile receiving number 571-273-8300. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available

Art Unit: 1752

through Private PAIR only. For more information about the PAIR system, see <a href="http://pair-direct.uspto.gov">http://pair-direct.uspto.gov</a>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
